**Theodore Bremner Symposium**  
on  
*High-Performance Lightweight Concrete*

---

***J.P. Ries & T.A. Holm***  
Editors

## CONTENTS

	<b>Page</b>
<b>Performance of Lightweight Aggregate Concrete in Marine Environment</b> S. Helland .....	
<b>A Comparative Study of Water Permeability and Chloride Penetration in Lightweight and Normalweight Aggregate Concrete</b> K.S. Chia and M.H. Zhang .....	
<b>Modeling the Internal Curing of High-Strength Concrete Using Lightweight Aggregates</b> S. Weber and H.W. Reinhardt .....	
<b>Performance of Structural Lightweight Concrete Made With a Potentially Reactive Natural Sand</b> S.R. Boyd, T.A. Holm, and T.W. Bremner .....	
<b>Chloride Diffusion in High-Performance Lightweight Aggregate Concrete</b> M.D.A. Thomas .....	
<b>Application of Self-Compacting Lightweight Aggregate Concrete in Japan</b> T. Sugiyama .....	
<b>Early Age Cracking Risk of Lightweight Aggregate Concrete</b> T.A. Hammer .....	

<b>Recent Research on the Mechanical Properties of High Performance Lightweight Concrete</b> K.S. Harmon .....	131
<b>How Information Technology Can Help Sustainability and Aid in Combating Global Warming</b> I.L. Kondratova and I. Goldfarb .....	151
<b>Moisture Dynamics in Lightweight Aggregate and Concrete</b> T.A. Holm, O.S. Ooi, and T.W. Bremner .....	167
<b>Internal Curing of Concrete Using Lightweight Aggregates</b> G.C. Hoff .....	185
<b>Probabilistic Modeling of the Flexural Fatigue Performance of Lightweight Concrete</b> V. Ramakrishnan and R.K. Panchalan .....	205
<b>Lightweight Aggregate Concrete: The Flagship of Sustainable Construction</b> R.N. Swamy .....	225
